

ARTHUR WELLS SAYS FRANK MURPHY'S A RAILROAD WIZARD

Marvels at Results Achieved
by Chief of the Peavine.

RIPLEY'S PARTY TOURS THE
COMPANY'S ARIZONA LINES

Mr. Wells Says Arizona Railroads
Have Put Territory Ahead
Twenty-Five Years.

"The railroads of Arizona have put this territory ahead twenty-five years," said A. G. Wells, general manager of the Santa Fe coast lines to a reporter Friday afternoon on board his private car, as it rolled along the steel highway from Prescott to Humboldt.

"And," he added, pointing his finger to President Frank M. Murphy, of the "Peavine," "there is the man you have to thank for it. It was due solely to his efforts that the Prescott and Eastern, the Phoenix and Eastern, and the A. and C. roads are here, and developing the resources of the territory. He got the money to build them, and he is certainly a wizard in that line, for to interest eastern capital in an Arizona railroad is a more difficult task than you can conceive. How he could do it I don't know. I know that I would not have dared to attempt it."

General Manager Wells was a member of a party of officials headed by President E. P. Ripley, of Chicago, who are inspecting the Santa Fe system and its connecting lines in Arizona. They were met at Ash Forks on Thursday night by President Murphy, W. A. Drake and F. A. Jones and were joined at Prescott at 2 a. m. by Auditor Hastings and Attorney Paul Burks. They traveled all night, and by morning were at the end of the present terminus of the A. and C. road. The run back was made by daylight, and afforded the party an excellent opportunity to inspect the road and view the country and its latest resources. They arrived at Prescott, at 2 o'clock, and soon afterwards were on the way to Humboldt. Arriving there they were met by General Manager Finney and Superintendent Wilson, who interestingly explained to them the smelter and its construction, which will have a capacity of 600 tons daily, and which will all practically be carried over the railroad. From Humboldt the special train went to Mayer, where it was sidetracked for the night, pending a visit to the Bradshaws next day.

With President Ripley and General Manager Wells were Second Vice President Kendrick, Third Vice President George T. Nicholson, Chief Engineer C. A. Morse of Los Angeles, A. R. Sprague of Chicago and H. T. Payson of San Francisco.

STOCK CAR FAMINE EMBARRASSES SANTA FE

ARIZONA AND NEW MEXICO
SHIPPERS BECOME IMPATIENT

The Santa Fe company is hard pressed for stock cars on the system in Arizona and New Mexico and cannot supply the demand. All along the line in Arizona and at many places in New Mexico, shippers are calling for cars, and at many points where cars were ordered some time since, the shippers have their stock at the yards still waiting. "Shipments are larger this year than for any like period in the history of the road," said a well known Santa Fe official yesterday. "Every available engine on the line are in use and it is impossible to keep up with the business."

Many sheepmen have driven large herds from Arizona points to Albuquerque and then have had to wait in this city for days before they could get the cars necessary to handle their stock.

Stock Yards Foreman George Troutman, of the Albuquerque yards, says that the shipments for the present year are more than double the business of any previous year.

There are at present 26,000 head of sheep at the local stock yards awaiting cars for shipment to the coast. Colorado. These are divided into four lots as follows: Sylvester Bros., 20,000; A. H. Webster, 1,000; Rudolph Ahrens, 2,000; Thomas Clark, 3,000. This bunch have been at the stock yards for the past week or more, and will probably remain for a day or two, when a large number of empties are expected to arrive in Albuquerque to relieve the congestion.

Local Railroad Notes.
One hundred and forty-five laborers for the Belen cut-off arrived in the city last night and this morning on belated 3 and went north to Belen. Of these fifty came from Denver and the rest came from Kansas City. Twenty-five laborers for the work on the Equis and came in yesterday morning on No. 2 from points west and went south to Equis, over the Santa Fe Central from Kennedy.

T. E. Purdy, agent of the Santa Fe at Oklahoma City, Oklahoma, arrived in the city last night and will succeed H. S. Lutz as local agent for the Santa Fe during the coming week. Mr. Lutz has for the past three years been in view and will probably decide what point he will accept within the next few days. There is a probability that he may take the agency at Santa Fe, from which place he came to Albuquerque.

W. E. Bailey, general auditor of the Santa Fe system, will arrive in Albuquerque either tonight or tomorrow and will remain over for a day. He is on a trip over the system and will proceed west after a short visit here.

Superintendent James Kure, of the Rio Grande division, returned in his headquarters at San Marcel last night after having spent a day or two in

this city. He has spent a portion of the time at Leta, where extensive improvements are under way.

BRONCHITIS

Druggists J. H. O'Reilly Co. Tell the People Quickest Means to Cure It.

Asked one day in his store the question, "What is good for bronchitis?" a member of the above firm answered, "For years old fashioned cod liver oil has been known to possess the most remarkable curative and healing properties for throat, bronchial, and lung troubles of anything known to medicine, but on account of the grease which enveloped its curative principles, it has been impossible for many people to take enough of it into their systems to combat a thoroughly settled disease without clogging the system and upsetting the stomach."

"Now, however," continued he, "we have Vinol which contains in a highly concentrated form all of the medicinal curative elements of cod liver oil actually taken from fresh cods' livers, without a drop of oil or grease to upset the stomach and retard its work, and physicians agree that it is the greatest cure for all throat, bronchial and lung troubles known to medicine."

Miss Anna Ray writes us that after suffering for five years with bronchitis and trying all kinds of medicines without relief, Vinol cured her, and we have hundreds of just such letters. We wish every person suffering from chronic colds, coughs, bronchitis and every aged, weak, or convalescent person who needs a healing, strengthening and blood-making tonic would try Vinol on our guarantee to return the purchase money if it fails. Electric Line for Roswell.

J. W. Hall, brother-in-law of Dr. J. O. Hamilton, who will furnish the greater part of the capital for the recently proposed street car system for Roswell, in case it is built, has been in Roswell a few days looking over the situation. To the Record he said: "The streets of Roswell are the worst disadvantage in putting in a street car system. None of them are paved, and this means that after every wet spell an enormous sum would have to be spent in leveling the track, and in keeping it even with the street. I favor putting in an electric system, rather than a horse car system. I believe the electric power, rented from the light company, would be cheaper than mules. From the present outlook, I hardly think a street car system in Roswell is feasible, because the town is not large enough to maintain it."

THE MICROSCOPE

Proves That Parasites Cause Hair Loss.

Nine-tenths of the diseases of the scalp and hair are caused by parasitic germs. The importance of this discovery by Professor Unna, of the Charity Hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff, because they do not, and they can not kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales called scurf or dandruff, is Newbore's Herpicide. In addition to its destroying the dandruff germ, Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. B. H. WE DEPEND upon the patrons of this store for its most effective advertising. Every one of our customers will, some time—somewhere—say words that count for or against us. It is a fact of which we are keenly sensible that one dissatisfied customer can do as much harm as a hundred satisfied ones can do good. We are therefore, ever on our guard to see that no customer leaves our store without being satisfied. If we have done our duty, we will most gladly adjust the wrong. We know our friends will not expect us to smooth up the little rough spots and annoyances until we have learned of their existence.
